

## **COUNTERBORING SPEEDS & FEEDS**

## **Carbide Tipped**

Speeds & feeds are starting recommendations only. Factors such as machine, fixture and tooling rigidity, horsepower available, coolant application and others will affect the performance significantly. Please read machine operators instructions and use all safety shields and glasses before performing these operations. Use these charts for carbide tipped counterbores.

RPM=SFPM\*3.82/CUTTER DIAMETER

| CLASSIFICATION               | MATERIAL  | COUNTERBORING |          | FEED RATE (INCHES PER REVOLUTION) FINISHED HOLE DIAMETER IN INCHES |      |      |      |      |      |
|------------------------------|---|---------------|----------|--|------|------|------|------|------|
